LECTURES, ETC.

ADAMS, Mr. J.:
Clinical Lecture on a Case of Stricture, with Abscess in Perinæo, 331

ANDERSON, Dr. MCCALL:
Lectures introductory to the Study of Diseases of the Skin.
Lectures I., II.—On the Therapeutics of Diseases of the Skin, 697, 783
Lecture III., 833

BRODHURST, Mr. B. E.:
Lectures on Orthopædic Surgery. Delivered at St. George's Hospital, 1868.
Lecture X.—On Distortions of the Trunk and Neck, 153

BROWN-SÉQUARD, Dr. C. E.:
Lectures on the Physiology and Pathology of the Nervous System; and on the Treatment of Organic Nervous Affections.
Lecture III.—On Hemiparaplegia, 429, 467

CURLING, Mr. T. B.:
Clinical Lecture on Two Cases of Excision of the Knee-joint, 37

GAIRDNER, Dr. W. T.:
Address delivered at the British Medical Association, 173

JENNER, Sir W.:
Address in Medicine delivered before the Annual Meeting of the British Medical Association, at Leeds, 171

JOHNSON, Dr. G.:
Introductory Lecture delivered at King's College, Oct. 1st, 1869, 463

RUTHERFORD, Dr. W.:
Introductory Lecture to the Course of Physiology in King's College, London, 1869, 533

SALTER, Dr. H.:
Clinical Lectures on Diseases of the Chest. Delivered at Charing-cross Hospital.
Lecture I.—On Primary Cancer of the Lung, 1
Lecture II.—On Cases illustrating the Influence of Convection in determining the Seat of Cardiac Murmurs, 113, 193, 225
Lecture III.—On Retrospective Physical Diagnosis, 263
Lecture IV.—On Presystolic Murmur, 565, 601

THOMPSON, Sir H.:
Introductory Lecture delivered at University College, Oct. 4th, 1869, 409

WELLS, Mr. J. S.:
Clinical Lectures delivered at the Royal London Ophthalmic Hospital, Moorfields.
Lecture I.—Ophthalmia Neonatorum, 261
Lecture II.—Iritis, 299
Lecture III.—Irido-choroiditis, 631
Lecture IV.—Inflammation of the Lachrymal Sac (Dacryo-cystitis), 667
Lecture V.—Strabismus, 733
Lecture VI.—Senile Cataract, 797

WEST, Mr. J. F.:
Clinical Lecture on Popliteal Aneurism, delivered at the Queen's Hospital, Birmingham, 75

Lecturing extraordinary, 695
Ledward, Dr., and the Manchester board of guardians, 100, 152, 200
Lee, Mr. H., the College election, 12; on albumen in the urine, sometimes in conjunction with the colouring matter of the blood, as a consequence of surgical diseases and operations, 202
—— v. Mawson, 276
Leeds, the Vaccination Act in, 665; Convalescent Hospital, 145
Leopold I., King of the Belgians, the case of, 633, 734, 757
Lescher, Mr. F. H., an Introduction to the Elements of Pharmacy, or the Minor and Major Examinations (review), 92
Letts's Diaries, &c. (review), 844
Lichen, chronic, treatment of, 400
Life assurance offices and the medical profession, 33, 328

Merthyr, sanitary affairs at, 19, 483; Board of Health, the Attorney-general v. the, 792; fever at, 872
Metallic poisoning, 426
Metallurgy, a Practical Treatise on (review), 91
Meteors, influence of, on health, 276
Metropolitan Free Hospital, 520
—— Health Officers' Association, 750
—— hospitals and medical schools, information concerning, 301
—— Provident Dispensary, 160, 222
Meyer, Dr. W., on adenoid vegetations in the naso-pharyngeal cavity, their pathology, diagnosis, and treatment, 771
Meymott, Dr. H., certificates in lunacy, 111, 222
Middle-class asylum, new, 100
Middlesborough, medical practice at, 886
Middlesex Hospital, introductory lecture at, by Dr. Liveing, 473; annual dinner, 523
Middleton, Mr. A. B., scarlatina, 761, 892
Midwifery cases in unions, 359
Mile-end, fever in, 98, 130
Military officers and men, relative mortality of, 886
—— prisons, the, 448
—— surgery, 222
Milk, uncontrollable flow of, 222; diet, on a purely, in the treatment of diabetes mellitus, Bright's disease, disease of the suprarenal capsules, fatty degeneration, &c., 538, 568, 735, 766
Milroy, Dr. G., cholera on the west coast of Africa, 557
Milsome, Dr., testimonial to, 468

MIRROR OF THE PRACTICE OF MEDICINE AND SURGERY IN THE HOSPITALS OF LONDON.

Charing-cross Hospital.—Epilepsy successfully treated with assafœtida, 207—Treatment of gout, 467

"Dreadnought" Hospital Ship.—Excision of head of femur with great trochanter for hip-joint disease; subsequent perforation of the floor of the acetabulum from extensive caries; death, 507

Evelina Hospital for Sick Children.—Measles followed by diphtheria; death, 436

Great Northern Hospital.—Cases of ulcer; varicosity; with venous hæmorrhage, 159

Guy's Hospital.—Case of casual association of several independent diseases, one of which was cystitis from latent stricture, 232—Wound of apex of right lung; hæmoptysis; emphysema; recovery, 337—Acute inflammation of the cerebral arteries during syphilis, 435—Ulceration of aortic valves; acute aneurism of heart and aorta from contact of vegetations; enlargement of the spleen, 608—Wound in the abdomen from a stab; protrusion of incised intestine; death on the following day, 740—Miscellaneous cases, 839

Hospital for Consumption, Brompton.—Case of pneumonia confined to the anterior base; remarks on chronic basic pneumonia, 609—Acute pulmonary tuberculosis, simulating typhoid fever, 741

Hospital for Women.—Peri-uterine hæmatocele, 302

King's College Hospital.—Relapsing typhoid fever, 118—Calculus vesicæ; case where death followed the introduction of the lithotrite, 207—Cases of septicæmia, 405—Cerebral hæmorrhage in a patient twelve years of age; hemiplegia; aphasia; subsequent meningitis, 541—Three cases of aneurism, 608—Cases of apoplexy, with atheroma of the smaller arteries and uniform pulmonary emphysema, 802

London Hospital.—Disease of the genito-urinary organs, 8—Death by hæmorrhage from cerebral tumours, 571—Lateral deviations of the eyes in cases of hemiplegia, 672—Cases illustrating the diagnosis of syphilis, 705

Metropolitan Free Hospital.—Constant vomiting and eructations relieved at once, and permanently, by sulphurous acid, 120—Infection of two members of a family from a nurse-child, 639—Imperforate hymen, retention of menses, operation, recovery, 804

Middlesex Hospital.—Retroflexion of the uterus in a single woman, caused by lifting a heavy weight, 338—Treatment of acute gout, 437—Severe cephalalgia associated with persistent hiccough, 769—A case of persistent vomiting, ib.—The treatment of ascites by copaiba, 770—

National Hospital for the Paralysed and Epileptic.—A case which illustrates some occasional sequelæ of cerebro-spinal concussion, 158—Hemiplegia from disease of the pons Varolii, 405—An association of nervous symptoms which frequently depends on intra-cranial syphilitic disease, 803—Neuralgia of third division of fifth nerve, ib.—Intense salivation, ib.—Chorea immediately following acute rheumatism, ib.

Poplar Hospital.—Arachnitis following a fall on the head; trephining; death, 119

Royal Free Hospital.—Ingwinal hernia; operations for the radical cure; results, 198—Calculus vesicæ; lateral lithotomy; successful result; with clinical observations on the mode of operating, 406—Excision of the knee-joint for strumous disease and chronic synovitis, 673—Operations for contracted muscles and traumatic stricture of the urethra, ib.—Operations on diseased joints, 770

Royal London Ophthalmic Hospital, Moorfields.—Injury of left eye from foreign body; sympathetic inflammation in right; extirpation of injured eye, and rapid recovery of the other, 839

St. Bartholomew's Hospital.—Scurvy, 302—Acute softening of the spinal cord, 638—Removal of the foot, 770

St. George's Hospital.—Enteric fever, with blood passed from the kidney, 158—Coma of obscure origin, ib.—The treatment of acute gout, 437—Cases of phagedæna, 540—Convulsive attacks following injury to the cranium; fissure of the bone of three years' standing, 705—Medical cases, 770

St. Mary's Hospital.—Hæmato-hydrocele treated by a seton, 208

St. Matthew's Infirmary.—Partial placenta prævia, terminating successfully without manual interference, 840

University College Hospital.—Tinea cirrinata (ringworm of the surface), 301—Method of dealing with stumps after amputation, 672—Plastic operation for chronic ulcer, ib.—Removal of fatty tumour, ib.—Fracture of the sixth cervical vertebra, with displacement; death, 705—Ligature of arteries for aneurism, 769—Dissemination of cancer, ib.—Diagnosis of surgical tumour, ib.

West London Hospital.—Obstruction of the bowels owing to scirrhus of the colon; death, 9—Retention of urine from calculus; lithotomy; recovery, 436—Partial amputation of the foot, 706

Westminster Hospital.—Cleft palate; novel procedure for improving the voice after the operation of staphyloraphy, 198—Inflammatory œdema of the larynx, entirely confined to the subglottic region, within the ring of the cricoid cartilage; tracheotomy, with cure; clinical remarks, 338—Acute atrophy of the liver, 740—Cases of salivary and perineal fistulæ, 803

Miscellaneous Cases in Hospital Practice.—Hemiotomy, 199—Aphasia, with cardiac murmur, 200—Vomiting of three years' duration, ib.—Cough, with elevation of temperature, ib.—Left hemiplegia, with complete paralysis of the tongue, ib.—Delirium tremens, ib.—Herpes occurring during an arsenical course of treatment, 508—Spina bifida in an adult cured by puncture, ib.—Repeated lithotomy, ib.—Malignant disease of the testicle, ib.

Missionary, a sanitary, 221
Missions, medical, in large towns, 589
Mitral regurgitant murmur, 189
Molyneux, Mr. J. L., poisoning by belladonna, 327
Montgomery, Dr. H. B., death of, 337
Moore, Dr. J. D., effects of a pistol-shot fired close to the chest, 6
Morris, Dr. J., on unusual case of vaccination, 558
Morrison, Dr. J. H., professional etiquette, 480
Morton, Dr. J., the antiseptic treatment, 320, 421
Mouat, Dr., on the administration of Indian gaols, 514
Mulvany, Mr. J., on a case of excision of the ankle-joint, in which both malleoli, a quarter of an inch of tibia, the astragalus, half the os calcis, and three-fourths of the scaphoid bones were removed; recovery, with motion, 634
Munro, Dr. W. S. H., on a case of congenital absence of the meatus externus of the right ear, 41; on a case of extensive wound into the tarso-metatarsal articulation, with the extensor tendons divided, 266
Murchison, Dr. C., the proposed testimonial to Mr. Syme, 68; on the reappearance of relapsing or famine fever in England, 503
Muscarin, the poisonous alkaloid of the Agaricus muscarius, 712

N

Nævus, the treatment of, 660; hairy, remarkable case of, 276
Nanney, Mr. C. L., case of induction of premature labour, 671
Napoleon, Emperor, health of, 417
Narcotics, 811
Naso-pharyngeal cavity, on adenoid vegetations in the, their pathology, diagnosis, and treatment, 771
National Hospital for Incurables, 563
